Reason For Use Code**Clinical Criteria**

667

For the treatment of adult patients with type 2 diabetes when adequate glycemic control is not achieved on the maximum tolerated dose of metformin or where metformin is contraindicated or inappropriate.

Semaglutide is not funded in combination with another glucagon-like peptide-1 receptor agonist (GLP-1 RA) or dipeptidyl peptidase-4 (DPP-4) inhibitor.

Injectable semaglutide is not funded in combination with oral semaglutide. Coverage is only provided for one dosage format.

Reimbursed dose: As per the product monograph

LU Authorization Period: Indefinite

From January 31, 2024 to April 30, 2024

The LU criteria for Ozempic are consistent with the previous therapeutic notes and with the Health Canada-approved indication of type 2 diabetes. Ozempic is not funded for ODB program recipients who do not meet the LU criteria on the Formulary. Claims for payment for dispensing Ozempic for ODB program recipients who do not meet the LU requirement will be subject to recovery. Claims for payment for Ozempic must be supported by a prescription that includes the applicable Reason for Use (RFU) code, as described further in the Ontario Drug Programs Reference Manual.

Between January 31, 2024 to April 30, 2024, pharmacists can use LU Code 279 to submit a claim for Ozempic (DINs 02471469, 02471477, 02540258) if they are unable to contact a patient's prescriber to obtain a new prescription with the LU criteria. This will ensure patients do not go without their drug until they are able to contact their prescriber.

The rules regarding the use of LU code 279 are set out in the Ontario Drug Programs Reference Manual. Please refer to the Executive Officer Notice for more information. RFU Code 279 may be used for up to three months until a new LU prescription is received.

The dispensing pharmacist cannot use the LU intervention code with RFU Code 279.

This RFU Code is only valid for claims submissions and is not to be used by prescribers on LU prescriptions. If the RFU code has been discontinued, RFU Code 279 may be used

279

Dear Dr.
Please authorize
LU code.

Thanks
